

quality control

Quarantee of high quality and strict standards

Company's Philosophy

Full and systematic quality control of raw materials and incoming component parts, during all stages of production, manufacturing, rebuilding and repairing, provision of services, finished products, methods and procedures, all come together to ensure a high quality and contribute to the overall development of the company's know-how.

Test Equipment

- Optical Emission Spectrometer Spectromax
- Portable Optical Emission Spectrometer Spectrotest
- Hardness meter Affri
- Portable Hardness meter Krautkramer
- Microscope Olympus
- Stereomicroscope Zeiss
- Universal Testing Machine for tension, bending and compression tests Instron 200kN
- Ultrasound Instrument Krautkramer
- Ultrasound Thickness meter Krautkramer
- X-Rays Pantak Seifert
- Surface Roughness meter Mitutoyo
- Crack Depth meter Karl Deutch
- Coating Thickness meter Fischer
- LK G90C CMM

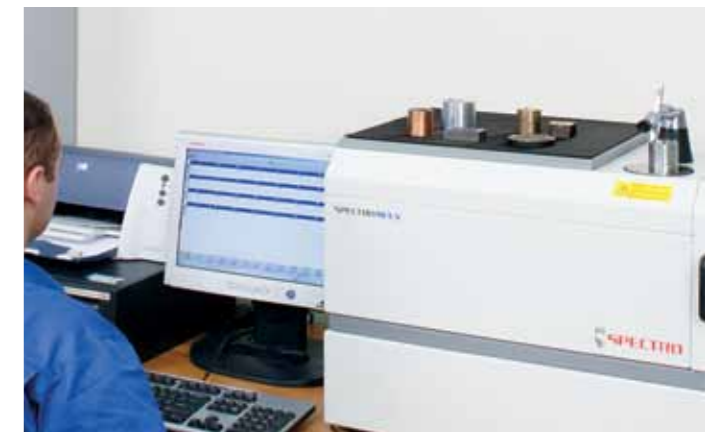

Quality Control Services

- Chemical analyses of metals (Fe, Ni, Ti, Al, Cu, Co, Pb, Zn, Sn) and their alloys
- Hardness measurements
- Metallographic analysis
- Materials failure analysis
- Tension, bending and compression tests
- Liquid penetrant testing
- Magnetic particle inspection
- Ultrasonic inspection
- Thickness measurements
- X-Rays
- Surface roughness measurements
- Crack depth measurements
- Chrome plating thickness measurements
- Precise 3D dimensional measurements

Quality Assurance

Quality control services accredited under the terms of the ELOT EN ISO/IEC 17025:2005 standard by the Hellenic Accreditation System S.A. (ESYD).

- Qualified personnel
- Immediate response
- Competitive prices
